MAGAZINE

FEATURES LIST 2022

SPRING

Packaging machinery

We look at some of the latest developments in primary and secondary packaging systems.

Environmental labelling

The Green Claims Initiative and other developments are driving demands for clear and robust on-pack information.

Supply chains and logistics

In the wake of disruptions and rising transport costs, is just-in-time still right for our time?

Nutri-Score

How does the algorithm work and how are manufacturers working to improve their score?

Profile

SUMMER

SNACKEX

SNACKEX preview

After last year's postponement, this year will see a bumper crop of new developments.

Water consumption

Find the latest ways to save water - from farm to factory.

Big data

High-quality data holds the key to benefits from factory efficiency to customer engagement.

Promotion under pressure

In store, online and elsewhere, marketers face increasing restrictions.

Profile

AUTUMN

SNACKEX review

Highlights for those who couldn't make it to Hamburg.

Sorting and inspection

Discover some of the latest ways to safeguard product quality and safety.

What price greener farming?

Will reducing conventional pesticides and expanding organic farming drive up standards across Europe or drive production to other regions?

Baked snacks

Baked snacks are evolving to carve out new market niches and make the most of today's baking technologies.

Snapshot

See how the markets for savoury snacks have been performing across Europe.

WINTER

Legumes

Once they were strictly niche as snack bases, but beans and pulses have exploded into the mainstream.

Hot air

Ovens, dryers and poppers all set out to rival frying.

Taxation

More discriminatory food taxes could be on the menu, thanks to initiatives such as the EU's Beating Cancer Plan.

Dust control

From explosions to respiratory problems, dust is a major health and safety challenge for food manufacturers.
